

# New Beauty

*Design that transforms your space with a single brushstroke.*

DESIGN

## Fluent in Italian.

**at FIG + NASH**

*A gleaming treasure chest inspired by the handwoven metal lacework of Milan.*

The Milanese Brass Chest by Baker Luxe is individually hand-carved by skilled artisans. Once wrapped in sheets of brass, a subtle scratch pattern is applied under a protective topcoat. The result crosses over a range of design genres with an inviting appeal that is both fashion-forward and casually elegant.

## Drip is Hip.

**JOY RESOLVE**

*Scientific design serves fresh coffee on cue.*

Rise and caffeinate with the Barisieur Coffee Machine Alarm Clock. What looks like a laboratory is an automatic tea and coffee brewer for bedroom or office. Let it wake you with a java aroma or prepare a fresh cup as you walk into work.
